

Galuh Muhamad Ramadhan

Software Developer building fast, scalable web experiences.

WORK EXPERIENCE

Full-Stack Developer @ Hingoray Company

Jun 2024 - Mar 2026 // Remote (Seoul, South Korea)

- › Built the Neume web platform from scratch using Next.js.
- › Maintained and improved website SEO to increase visibility and search performance.
- › Implemented frontend unit tests with Vitest and end-to-end tests using Playwright.
- › Collaborated closely with UI designers to deliver pixel-perfect user interfaces.

Frontend Developer @ PT. Majoo Teknologi Indonesia

Sep 2019 - Dec 2023 // Malang, East Java

- › Contributed to the rebranding of Klopas to Majoo by collaborating with designers and implementing a complete UI redesign for the web application.
- › Refactored the application to improve performance, scalability, and support a growing merchant base.
- › Enhanced code quality and maintainability by applying clean code principles and development best practices.
- › Built and maintained a scalable design system with Storybook, establishing consistent UI patterns across products.

Frontend Developer @ PT. Klopas Ritel Fintek

Jul 2017 - Aug 2019 // Malang, East Java

- › Developed the minimum viable product (MVP) for a cloud-based sales dashboard and POS system using React and JavaScript.
- › Proposed and implemented unit testing practices, increasing test coverage to 80% and improving application stability and reliability.
- › Collaborated with UI designers and cross-functional development teams to deliver new features.

Junior Java Programmer @ PT. BITS Miliartha

Jul 2014 - Feb 2017 // Surabaya, East Java

- › Developed and delivered features for Bee Accounting, a desktop accounting application built with Java Swing.
